

## IDAHO HEALTH DATA EXCHANGE

**PURPOSE:** Our mission at the **Idaho Health Data Exchange (IHDE)** is to improve the coordination and quality of healthcare in Idaho by enhancing the timeliness and accuracy with which providers receive patient health information.

**DELIVERABLE(S) and the COMPLETION DATE FOR EACH DELIVERABLE:**

We are accomplishing this mission through the development of a health information exchange system, which electronically delivers secure, accurate, and comprehensive patient information to the point of care for [providers](#) and [patients](#).

Idaho's health information exchange system is a step toward achieving the federal government's goal of creating a value-driven healthcare system through the development of a nationwide interoperable health information technology infrastructure.
