

## Health Care Council Coordination Workshop

Idaho Nursing Action Coalition

## The Future of Nursing: Campaign for Action

Background

### The IOM Report

High-quality, patient-centered health care for all will require a transformation of the health care delivery system

### Origin of the Campaign

RWJF committed to advancing recommendations

Developing concrete implementation steps

### Implementation

- All Americans have access to high-quality, patient-centered care in a health care system where nurses contribute as essential partners in achieving success

### Campaign Vision

- Education
- Access to Care
- Inter-professional Collaboration
- Leadership
- Workforce Data

### Campaign Focus

- Increase to 80 percent the proportion of nurses with BSN by 2020
- Double number of nurses with doctorate by 2020
- Implement nurse residency programs
- Promote lifelong learning

### Education

- All practitioners should practice to full extent of their education and training
- Optimal care
  - Physicians, nurses and other health professionals work in team-based model of care delivery
  - Models of care maximize time that providers can spend on their respective roles and responsibilities to patients

### Access to Care

- Integrated, collaborative, patient-centered health care teams
- Foster interprofessional education, training and practice

### Inter-professional Collaboration

- Nurses bring important viewpoint to management and policy discussions
- Prepare more nurses to help lead improvements in health care quality, safety, access and value

### Leadership

- Improve health care workforce data collection to better assess and project workforce requirements
  - Research on health care workforce is fragmented
  - Need data on all health professions

### Workforce Data

2010: October - IOM report released  
 November - 5 Regional Action Coalitions named (WAVE I)  
 November 30- Summit, Washington DC
